Police Office, Tel. + 48 12 271 12 01
 1 Jagiellońska Street, 32-410 Dobczyce

SS Nicolas and Mary Magdalene Church in Dziekanowice
 Considered to be one of the oldest churches in Malopolska, this sandstone church was most probably built at the turn of the 12th century. All that is left of this originally Romanesque structure is the chancel, once functioning as the nave. A similar period is represented by the surviving pieces of a polychrome and by the walls surrounding the church. The current shape of the church is an outcome of conversion works conducted in the 17th/18th century, whereby a nave and sacristy was added, and a porch at the beginning of the 20th century.

Manors
 The history and the culture of the local region is represented by the numerous manors and roadside chapels. The manors scattered around the villages used to be in the possession of wealthy families, owners of landed property. The biggest manor, surrounded by a historical park, can be found in Sieraków (on the photo). Dating back to 1847, it resembles a classical palace. Other facilities of this type include: the “Krzyszczak” manor, the Bednarski manor in Stadniki, the Ertelein manor in Niezdów, and the renovated manor in Stojowice.

Statues
 The inhabitants in Dobczyce community must have been quite pious, as we can deduce from the numerous statues and chapels intended to protect the people through their patron saints against various dangers. The most famous ones include the Statue of St. Florian (photo on the left), situated in Dobczyce market square, while the oldest ones are represented by a 1604 chapel with a Pensive Christ, moved to the Open-Air Museum from Gaik-Brzezowa (right photo).

The „Niezapominajka” nature walk in Kornatka
 A walk along the 12-kilometre path is a great active idea, providing one with an opportunity to see the surrounding woods and admire the magnificent landscapes. The forest complex between Dobczyce Lake and the Glichowiec Hills is the largest such area locally. The starting point of the “Niezapominajka” trail is the parking lot in the centre of Kornatka, from where you follow a marked gravel mountain road.
